

# Portolano

2019

*Before each round, the starting player receives the extra die. The rolled symbol is valid for the whole round.*

 In this round, if a player picks up goods shown on the die face from the islands, he/she may take 1 additional good of this kind from the supply board. (Not applicable for trade deals).

 In this round, the pirate moves 2 spaces in the direction shown on the die face. (Still may not stop on the port tiles).

 After all players have chosen their movement cards, the starting player spins the wind direction spinner again. During player movement (and hence calculating the amount of rum consumed) this will be in effect.

 All players gain a thaler.
